KELOID INSIDER

Keloid Insider is a regular newsletter published and distributed by Dr. Tirgan. Various keloid-related topics are discussed in straightforward language.

R5-R6 Keloid Cream Survey

Hello:

This survey is geared towards those who have previously used R5 or R6 keloid creams. Please disregard this e mail if you have not been using any of these creams.

Over the past two years, I have prescribed the R5 and R6 creams to many of my keloid patients. This survey is being sent to you to better understand how the cream has worked for you and if it caused any adverse effects.

I appreciate you taking two minutes of your time and answering eight questions. Your answers will guide me to fine-tune this treatment. I intend to share the collective analysis and results of this survey with everyone.

To participate in this survey, please click on the link below. You will be forwarded to questions that are hosted on SurveyMonkey.

You will answer the questions anonymously. We do not collect your name or any information that may connect you to your answers.

Sincerely,

Michael H Tirgan MD
